

Enterprise Systems Administrator
Cincinnati Country Day School – Cincinnati, Ohio
July 2024

Job Description

Cincinnati Country Day School (CCDS) is seeking an experienced, dynamic, organized problem solver with the confidence and abilities to oversee the school's critical infrastructure and systems. We are seeking an enterprise systems manager with a proven track record of managing a complex environment aligned with ours. The focus will be on maintaining and implementing systems that support the school's pedagogical and operational goals of our benchmark technology program and function as part of the technology leadership team. The position is a 12-month, full-time position that reports to the director of technology. Start date is preferably summer 2024.

Essential Duties and Responsibilities

The enterprise systems manager will configure, maintain, and support:

- A large Microsoft userbase across campus, approx. 1000 Surface Pro and Surface Go devices deployed
- Work alongside CCDS's network admin to ensure system uptime and issue resolution
- Extreme Networks and HP Aruba Layer-3 LAN switches.
- Extreme Networks Wi-Fi (Extreme Cloud IQ).
- Microsoft virtualized server operating systems and applications (Azure Stack HCI and Hyper-V, Windows Server, SQL Server, Exchange Server).
- MS Windows 11 Surface Pro devices -- operating system, application, policy deployment.
- Microsoft cloud services including (Entra ID, Intune, Teams, Exchange Online, SharePoint Online, and School Data Sync).
- Microsoft Enterprise PKI and publicly trusted certificates.
- Support Microsoft on-premises Active Directory and Microsoft Azure cloud AD.
- Microsoft networking services (DHCP, DNS, NPS, File, and Print Services).
- Google Cloud DNS and Google Domains (Squarespace).
- PaperCut MF print management services.
- PowerShell scripts for system administration and data synchronization using VSCode and GitHub.
- Fortinet edge firewalls.
- AudioCodes SIP session border controller.
- Certain components of the Veracross school information system.
- Coro cybersecurity system.
- Lenel OnGuard access control system.
